RE: Spring Creek Mines
Carol #4 Mine
PRO/001/003
Beaver County, Utah

Dear Mr. Crawford:

The State of Utah Division of Oil, Gas and Mining has not yet received the proper filing for the Carol #4 Mine. You will remember that the appropriate forms and a copy of the Utah Mined Land Reclamation Act were sent to you on October 23, 1978, at which time you were notified of your violation of State statute, specifically conducting mining operations without approval. You were also informed that all activities at the site must cease until such time as an approval is granted.

Please be reminded that should you be actively conducting mining operations at the Carol #4 Mine, you will be considered to be in violation of Section 40-8-13 of the Utah Mined Land Reclamation Act.

You are hereby requested to immediately complete and file, with the Division, the appropriate forms, which you will find enclosed. If you are no longer operating at the above mine and have no plans for further development of this property, then you will be held accountable for the reclamation of all disturbances in the area caused by your activity, according to the standards set forth in Rule M-10.
